Cyber Hull Insurance

Application Form

Important Information

- Material information must be disclosed. Material information is information that would influence an insurer in deciding whether a risk is acceptable, and, if so, the premium and terms and conditions to be applied. Failure to disclose to the insurer all such information or misrepresentation of information could result in the policy being rendered void so that claims would not be paid.
- It is a requirement the vessels listed are insured for Protection & Indemnity, Hull & Machinery, Marine and War Risks and such insurance will be maintained throughout the term of this Cyber Hull Insurance coverage.
- The attachment date will be whichever is the later of declared inception date above or the day following receipt of the full fleet premium by SIGCo.
- The SIGCo 2018-19 Cyber Insurance Wording can be found on SIGCo's website at www.sigcogroup.com.
- The policy wording includes provisions which would reduce the fleet aggregate limit on smaller fleets where the total sums insured on the Vessels declared are less than the aggregate limit selected. Similar provisions are also applied to individual Vessels within a fleet to cater for instances where the Vessel's sum insured hereunder is greater than her total insured value under her H&M and Total Loss Interests policies.
- You agree to provide accurate, complete and timely information to enable us to fulfil our obligations to your insurers to make a fair presentation of risk. This includes (i) prior to the placement of your policy of insurance and (ii) when there are changes or variations in cover and (iii) when the policy is renewed or extended.
- You agree that we shall rely on the information and data provided by you. Any answers or statements given on the Application Form or any other material document completed by you are your responsibility and should therefore be checked carefully. Failure to provide accurate information to us is likely to result in a delay in the placement of insurance.
- Unless otherwise agreed in writing, we are under no obligation to investigate or verify the accuracy or completeness of any information or data provided by you and we are not liable for any errors or deficiencies in the services arising out of or based on any such inaccurate or incomplete information or data.
- You agree to advise us immediately if any documentation supplied by us does not appear to be in accordance with your requirements or instructions.
- Only tax rates applicable to insurance premiums that are collected by Lloyd's should be noted. Local taxes do not form part of this submission.
- We do not offer advice in relation to tax and we recommend that you should take such specialist tax advice as you consider necessary regarding the calculation and payment of premium taxes, duties or other charges. You are responsible for accounting for any premium taxes, duties or charges.
- Neither party shall take any action which facilitates the evasion of taxes anywhere in the world or which is contrary to any related financial crime laws and regulations and as a consequence in the event that premium taxes are calculated incorrectly or incorrect information is supplied to us, this will result in a delay to your insurance placement and may result in additional premium taxes being due from you even after the placement of the policy.
- There is no return of premium.
